Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Six Months Period Ended December 31, 2021 and 2020

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Hill Street Beverage Company Inc., formerly Avanco Capital Corp. (the “Company”) was incorporated on April 6, 2016 in British Columbia under the Business Corporations Act (British Columbia) and was continued to Ontario under the Business Corporations Act (Ontario) on November 30, 2018. The Company commenced trading on the TSX Venture Exchange (the “TSX V”) under the symbol “AAA.P” on March 24, 2017. The Company is engaged in supplying alcohol free drinks. The Company sells its products online, in retail stores and to distributors in Canada. The Company is also engaged in cannabis beverage sales and cannabis technology licensing.

The Company changed its name from Avanco Capital Corp. to Hill Street Beverage Company Inc. on July 24, 2018 in conjunction with a reverse takeover transaction (the “RTO”). The Company resumed trading on the TSX V at the opening of the market on July 24, 2018 under the new symbol “BEER”.

The Company’s registered address and the records are held at 2410 Lucknow Drive Unit #31, Mississauga, Ontario, L5S 1V1.

These condensed interim consolidated financial statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future and that management does not intend to liquidate the entity, or has no realistic alternative but to do so. As at December 31, 2021, the Company had not yet achieved profitable operations, had a net loss of \$1,299,036 (December 31, 2020, 2020: \$956,375), accumulated deficit of \$20,944,672 (June 30, 2021: \$19,645,636), and expects to incur further losses in the foreseeable future, all of which indicate the existence of a material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

The Company’s ability to continue its operations and to realize assets at their carrying values is dependent upon its ability to obtain necessary financing and generate operational profit to meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. The success of the Company’s endeavors cannot be predicted at this time. There is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company.

Hill Street Beverage Company Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Six Months Period Ended December 31, 2021 and 2020

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN (continued)

During the year, there was the continued global outbreak of COVID-19 (coronavirus), which has had an impact on businesses through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. The Company's operations were impacted by COVID-19 due to a slower growth in year over year sales than anticipated. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus. While the extent of the impact is unknown, we anticipate this outbreak may cause reduced customer demand, supply chain disruptions, staff shortages, and increased government regulations, all of which may negatively impact the Company's business and financial condition.

2. BASIS OF PREPARATION

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). As such, these interim financial statements do not contain all the disclosures required by IFRS for annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the years ended June 30, 2021 and 2020 (the "Annual Financial Statements").

Basis of Presentation

The consolidated financial statements have been prepared on a historical cost basis except for certain financial assets that are measured at fair value. All dollar amounts presented are in Canadian dollars unless otherwise specified.

Consolidation

These consolidated financial statements incorporate the financial statements of the Company and its wholly owned subsidiaries, Hill Street Marketing Inc. and Hill Avenue Cannabis Inc., companies incorporated in Ontario. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are included in the consolidated financial statements from the date control is obtained until the date control ceases. All significant intercompany transactions and balances have been eliminated.

- (i) On July 30, 2018, the Company entered into a semi-exclusive licensing agreement with Lexaria Canpharm Corp. for the use of its technology to produce a line of cannabis-infused alcohol-free beverages for Canadian distribution, following regulatory approval. The Company was required to pay a licensing fee of USD\$93,750 payable over 274 days and an initial share issuance equal to USD\$56,250. As of June 30, 2019, all amounts have been paid and the Company has capitalized a total of \$209,250 related to this agreement. These licenses fees are being amortized over their useful life of five years (the effective term of the license agreement).

On December 9, 2020, the Company entered into an intellectual property license agreement with Lexaria HempCo. to expand the Company's license with Lexaria HempCo to make products containing CBD on a global basis for ten years. This agreement hereby supersedes and replaces in its entirety the prior agreement dated July 30, 2018. The Company changed the useful life over which depreciation expense is recorded on its licenses from 5 to 10 years.

7. INTANGIBLE ASSETS (continued)

- (ii) On December 9, 2020, the Company entered into an asset purchase agreement with Lexaria Canpharm ULC to acquire exclusive rights in perpetuity to use Lexaria's non-pharmaceutical THC-related property assets and license agreement assets (the "Canpharm Licenses") in exchange for aggregate consideration of \$3,590,928 (the "Lexaria Asset Acquisition"). Additional transaction costs totaling \$38,655 were incurred in connection with the completion of the asset purchase agreement. The transaction has been accounted for as an asset acquisition.

Aggregate consideration included an upfront cash payment of \$350,000 on closing (paid), \$2,000,000 payable in the form of a promissory note bearing 10% interest per annum (note 9), a total of 6,031,363 common shares valued at \$753,920 issued on closing (note 10) and \$1,000,000 of consideration payable to be settled in the form of common shares, payable in two equal tranches 8 months and 16 months from the date of closing.

On August 9, 2021, the Company issued 7,575,758 shares to Lexaria CanPharm ULC valued at \$643,939 as full payment in settlement of the second tranche of the consideration payable. In connection with the issuance, the Company issued 1,693,405 shares in excess valued of \$118,538 and the overpayment will reduce the third tranche liability that will be issued 16 months on the anniversary of the closing date at the greater of \$0.085 or the 10 weighted average closing of the purchaser's shares.

Consideration payable shall be settled in common shares at a price per share equal to the greater of the 10-day volume weighted average closing price on such payment date and the closing price on the date the Lexaria Asset Acquisition was executed. The fair value of the contingent consideration on the date of closing amounted to \$487,008 determined using a Monte Carlo Simulation. As at December 31, 2021, consideration payable was revalued at \$230,392 (June 30, 2021: \$746,224) and a loss on fair value of consideration payable totaling \$14,471 was recognized in the consolidated statements of operations and comprehensive loss during the six-month period ended December 31, 2021. The intangible assets acquired included a license and sublicenses. The value of each was proportionately allocated based on their fair value. The license is being amortized over the useful life of the patents it gives the right to which are 20 years. The sublicenses are being amortized over their remaining useful life which is between 4 and 9 years.

Canada Emergency Business Account (continued)

The Company received a loan in the aggregate amount of \$60,000 pursuant to the Canada Emergency Business Account ("CEBA"). The CEBA provides zero-interest, partially forgivable loans of up to \$60,000 to small businesses that have experienced diminished revenues due to COVID-19 but face ongoing non-deferrable costs, such as rent, utilities, insurance, taxes and employment costs. If the balance of the loan is repaid on or before December 31, 2022, 25% on the first \$40,000, plus 50% percent on the additional \$20,000 will be forgiven. The loan bears no interest until December 31, 2022, at which point if unpaid, it will convert to a three-year term loan bearing interest at 5% per annum. On recognition, the initial \$40,000 and additional \$20,000 were recognized at their respective fair values totaling \$22,061 and \$13,459, and the subsequently measured at amortized cost, using an effective interest rate of 23%. During the period ended December 31, 2021, \$5,103 (December 30, 2020: \$2,723) of interest expense related to the CEBA loan was recognized and included in accretion expense in the consolidated statements of operations and comprehensive loss.

12. CANADA EMERGENCY WAGE SUBSIDY

The Company applied for and received the Canada Emergency Wage Subsidy (“CEWS”), which provides up to 75% of an employee’s wages, up to a maximum of \$847 per week. The initial program was in place for a 12-week period, from March 15, 2020 to June 6, 2020 and included three distinct claiming periods. In connection with the program, the Company received an additional \$83,727 during the year ended June 30, 2021.

As at December 31, 2021, the Company continues to monitor the program and apply for subsidies as applicable.

13. FINANCIAL INSTRUMENTS

Financial instruments are initially recognized at fair value on the consolidated statements of financial position. Subsequent measurement of financial instruments is based on their classification. Financial assets and liabilities classified at fair value through profit or loss (“FVTPL”) are measured at fair value with changes in those fair values recognized in the consolidated statements of operations and comprehensive loss. Financial assets and liabilities classified at amortized cost are measured at amortized cost using the effective interest method.

The following table summarizes the classification and measurement for each financial instrument:

Financial instrument	Category	Measurement
Cash and cash equivalents	FVTPL	FVTPL
Accounts receivable	Loans and receivables	Amortized cost
Due from related parties	Loans and receivables	Amortized cost
Subscription receivables	Loans and receivables	Amortized cost
Accounts payable and accrued liabilities	Other liabilities	Amortized cost
Consideration payable	FVTPL	FVTPL
CEBA Loan	Other liabilities	Amortized cost
Note payable	Other liabilities	Amortized cost

Financial assets

The Company classifies its financial assets into the following categories, depending on the purpose for which the asset was acquired. Management determines the classification of its financial assets at initial recognition. Financial assets are derecognized when the contractual rights to cash flows from the financial asset receipt or when the contractual rights to those assets are transferred.

Amortized cost

Financial assets measured at amortized cost are financial assets held within a business model whose objective is to collect contractual cash flows, with the cash flows representing solely payments of principal and interest. These assets are initially recognized at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial assets are measured at amortized cost using the effective interest method, less any impairment losses.

13. FINANCIAL INSTRUMENTS (continued)

FVTPL

Financial instruments are classified as FVTPL when they are held for trading. A financial instrument is held for trading if it was acquired for the purpose of sale in the near term. Financial instruments classified as FVTPL are measured at fair value, with any changes in fair value recognized in net loss.

Financial liabilities

Management determines the classification of its financial liabilities at initial recognition.

Amortized cost

Financial liabilities are classified as measured at amortized cost unless they fall into one of the following categories: financial liabilities at FVTPL, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition, financial guarantee contracts, commitments to provide a loan at a below-market interest rate, or contingent consideration recognized by an acquirer in a business combination.

Financial liabilities are classified as current liabilities if payment is due within one year or less. If not, there are presented as non-current liabilities.

Financial liabilities recorded FVTPL

Financial liabilities are classified as FVTPL if they fall into one of the five exemptions detailed above.

Transaction costs

Transaction costs associated with financial instruments, carried at FVTPL, are expensed as incurred, while transaction costs associated with all other financial instruments are included in the initial carrying amount of the asset or the liability.

Subsequent measurement

Instruments classified as FVTPL are measured at fair value with unrealized gains and losses recognized in profit or loss. Instruments classified as amortized cost are measured at amortized cost using the effective interest rate method. Instruments classified as FVTOCI are measured at fair value with unrealized gains and losses recognized in other comprehensive income.

Derecognition

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled, or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

13. FINANCIAL INSTRUMENTS (continued)

Expected credit loss impairment model

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. The Company considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Company in full or when the financial asset is more than 90 days past due.

The carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

The fair value hierarchy that prioritizes the inputs used to measure fair value is as follows:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 - Inputs that are not based on observable market data.

The fair value of cash is determined based on Level 1 inputs which consist of quoted prices in active markets for identical assets. The fair value of consideration payable is determined based on level 2 inputs which consists of inputs other than quoted prices that are observable for the liability. As at December 31, 2021 and June 30, 2021, the Company believes that the carrying values of cash and cash equivalents approximate the fair values because of their nature and relatively short maturity dates or durations.

16. FINANCIAL RISK EXPOSURE AND RISK MANAGEMENT

The Company's financial instruments are exposed to a number of risks that are summarized below:

Credit Risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk from its cash and cash equivalents, accounts receivable, due from related parties, and subscription receivables. The risk exposure is limited to their carrying amounts reflected on the statement of financial position. The risk for cash and cash equivalents is mitigated by holding most of these instruments with highly rated Canadian financial institutions. The carrying value of these financial assets represents the Company's maximum exposure to credit risk. As at December 31, 2021, the Company had \$451,466 (June 30, 2021 - \$370,204) financial assets that may be subject to credit risk defaults.

14. FINANCIAL RISK EXPOSURE AND RISK MANAGEMENT (continued)

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations with respect to financial liabilities as they fall due. The Company's financial liabilities consist of its accounts payable CEBA loans payable and promissory note. The Company manages its liquidity risk through the management of its capital structure as described in Note 17. The Company's accounts payable have contractual maturities of 30 days or are due on demand, do not generally bear interest and are subject to normal trade terms. As at December 31, 2021, the Company held \$977,715 (June 30, 2021 - \$1,451,180) in current liabilities.

The composition and maturity of the Company's financial liabilities was as follow:

		Total	1 year	2-3 years	4-5 years	Over 5 years
Accounts payable and accrued liabilities	\$	747,323	747,323	-	-	-
Lease liability		22,932	21,096	1,836	-	-
CEBA loan		60,000	-	-	60,000	-
Note payable		2,193,223	126,577	731,266	958,921	376,458
Consideration payable		230,392	230,392	-	-	-
	\$	3,253,870	1,125,388	733,102	1,018,921	376,458

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, investment fluctuations, and equity prices. Market conditions will cause fluctuations in the fair values of financial assets classified as fair value through profit or loss, and cause fluctuations in the fair value of future cash flows for assets or liabilities measured at fair value. As at December 31, 2021, the Company holds \$2,000,000 of interest-bearing debt, however there is no cash flow interest rate risk because the interest rate is fixed at 10%.

Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign currency exchange rates. Revenue and expenses are mostly denominated in Canadian dollar, US dollar or Euro. A significant change in the currency exchange rates between the Canadian dollar, US dollar and Euro could have an effect on the Company's results of operations, financial position or cash flows. However, because most of the Company's financial instruments are denominated in Canadian dollars, the Company does not believe it is subject to any significant foreign exchange risk at this time. The Company has not hedged its exposure to currency fluctuations.

15. CAPITAL MANAGEMENT

The Company considers capital to consist of CEBA loan, note payable, convertible debenture and shareholders' equity. The Company's primary objectives in capital management are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain sufficient funds to finance its business development and meet its obligations as they come due. The Company is in the early stages of operations and is currently developing a capital structure which will support expanded activity. The Company monitors economic conditions and the risks related to the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital and is not subject to externally imposed capital requirements.
